MY PROJECTS

Portfolio Website

A personalized portfolio website showcasing innovative projects and design expertise.

- **Technologies used :** HTML, CSS and JavaScript.
- **Link -** https://github.com/PragnyaBasu/personal_portfolio.git

Medical Supply Management System

The system manages medicine distribution, ensures genuine drugs and keeps track of the supply.

- **Frontend** : HTML, CSS, Java Script, Bootstrap.
- **Backend** : Python flask (Python 3.7), MySQL.
- **Link** - https://github.com/PragnyaBasu/Medical-Supply-Management-System.git

Simon Game Project

The Simon game challenges players to memorize and replicate an increasingly long sequence of lights and sounds.

- **Frontend :** HTML, CSS, JavaScript.
- **Backend :** JavaScript, jQuery.
- **Link** - https://github.com/pragnyabasu/simon-game.git
